JEP Classification Review Committee - Update

Because of the renegeing by Canada Post, three and one half (3 ½) months after our agreement regarding the role of the Classification Review Committee (as stated in the bulletin dated December 13, 2002), no letters containing the results of the review requests have been sent out.

I had requested an emergency meeting with Canada Post on December 10, 2002, but the employer was not available until January 15, 2003!!! The meeting did take place on that date. No new deadline has been set but the committee hopes to be in a position to start responding to the review requests in a few weeks.

I understand and share your frustration. Your patience is also very much appreciated. We are doing what we can to resolve all related issues with Canada Post.

In Solidarity,

Luc Guevremont,  
National President
