**Anti-SPAM blocking Union email messages?**

The anti-SPAM solution recently introduced by Canada Post seems to have affected the email messages sent to members by the UPCE National Office. As it is designed to apply to all e-mail originating outside of Canada Post, Union email messages may have been filtered as "undesirable". We are currently looking into possible solutions. In the meantime, to ensure you receive an email version of our bulletins, please provide your personal email address (if applicable) and mention which local you belong to at the following address:
